EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas M. Isaacson on 12/4/2009.

The application has been amended as follows:

Regarding claim 43, on line 9, replace the phrase "...where the chosen animated entities deliver respective..." with the phrase "...where the chosen animated entities automatically deliver their respective...", on lines 11-12, replace the phrase "...and independent of recipient interaction to an animated entity..." with the phrase "...and independent of recipient interaction beyond the act of opening the email text message."

Regarding claim 44, on line 4, delete the phrase "...at least one of...", on line 8, replace the phrase "...wherein the first animated entity delivers the..." with the phrase "...wherein the first animated entity automatically delivers the ...", on line 9, replace the phrase "...wherein the second animated entity delivers the..." with the phrase "...wherein the second animated entity automatically delivers the ...", and on lines 11-12, replace the phrase "...portion of the text message..." with the phrase "...portion of the text message and independent of recipient interaction beyond the act of opening the email text message."

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Regarding claim 43, cited prior art does not teach a computer-implemented method of enabling a sender to create a multi-media message to a recipient that includes wherein the sender is presented with an option to choose at least two animated entities wherein the chosen animated entities automatically deliver their portions of the email text message according to the position in the text message of their associated indicator and independent of recipient interaction beyond opening the email text message;

Regarding claim 44, cited prior art does not teach a computer-implemented method of enabling a sender to create a multi-media message to a recipient that includes receiving from the sender an email text message wherein the first and second animated entities automatically deliver their associated text wherein the delivering is associated with an inserted, non-text indicator associated with a respective animated entity for delivery of that portion of the text message and independent of recipient interaction beyond opening the email text message.

Claims 45-46, depend from claim 44 and are allowable for the reasons cited above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
